

Who knows...

...what goodies lurk in **MARTIAN METALS'** boxed miniature sets? (Boy, are we glad you asked!) Knights and maidens, magicians and monsters, swashbucklers and desperados— (The Good, the Bad, and the Uglies?) —as I was saying: All the worlds of your adventuresome imagination, crafted in quality 25mm action figures that look almost alive. (You mean they're not?) (I don't THINK so...) (Well, at least we warned 'em.) (Hmm.) **WORLDS OF FANTASY** and **KNIGHTS OF OLDE**, the **OLD WEST** and **BUCCANEERS**:

Instant excitement for your fantasy gaming, at only \$6.95 per box (\$9.95 for the Giants). All you add is imagination. (Not too much, tho? I don't trust 'em! Especially giants!) **ETAOIN SHRDLU!!** They may look alive, but after all, they're only metal... **MARTIAN METAL.**

(And don't forget about all our 15mm assortment packs of **DRAGONSLAYERS™** and **TRAVELLER™** authorized SF miniatures. Aren't you even going to mention them? Huh? Hey! Don't leave me alone with these things...)
