Dragontooth introduces another first. Big Meg, the only giantess fantasy figure! Big Meg is an excellent addition to anyone's adventure role-playing game. A beautifully grotesque sculpting depicting Big Meg with a scowling face, wild tangled hair and a huge knobby body. In pursuit of someone for her dinner pot. Swinging a massive soup ladle, a figure to fit perfectly into anyone's dungeon kitchen.

Other new releases in the extensive giant range include Old Horny, a full-bearded minotaurian cave giant wielding a spiked war club. Then there's the Horned Hill Giant, a towering, charging figure with tree-trunk club, the perfect mate for Big Meg.

Dragontooth miniatures look like giants because they are giants! Huge, hulking, imposing figures, sculpted with the same fine detail of the rest of Dragontooth's fantasy line. Dragontooth's giants are heads and shoulders above the competition's. Now with our Special Discount offer of buy 3 Giant Sets and save \$2.50. Dragontooth's figures are a giant of a bargain!
