

# When it comes to small figures, we are big on detail.

If you are looking for a metal figure of the fighter who is wearing a cloak, spiked platemail, horned helmet, face mask, backpack and is armed with a double-handed axe and shield bearing a death-head crest, then the chances are that CITADEL MINIATURES make one.

CITADEL MINIATURES have won more awards in the UK for their ranges of fantasy figures than all the other companies combined. Why? The answer is simple. We at CITADEL are gamers ourselves. We recognise the need for original, imaginative and individualised figures – so that's what we make. Visit any branch of GAMES WORKSHOP or local hobby shop to see the variety of our ranges and examine the detail we put into our figures. We are certain we'll have what your looking for.

If you prefer to look at our ranges at your leisure, then send a cheque or postal order for 95p (made payable to **Games Workshop Ltd**) plus a large stamped addressed envelope to **Citadel Miniatures, 10 Victoria Street, Newark, Notts** for the CITADEL COMPENDIUM. The compendium features illustrations of the entire CITADEL ranges, a figure painting guide, letters, **Warhammer** rules and scenarios and more.
