MODERN DAY HEROES

USX MODERN DAY HEROES

What is USX?

Designed to compliment RAFM's USX Modern Day Heroes and Cthulhu range of figures the 32-page rule book offers players a fun and fast skirmish game system.

Printed in full color with rules for:

Skirmish Rules

Players enact skirmish level battles using individual models to represent Modern Day Hero's in heart pounding action. Attack your opponent through ranged combat or charge in with an assortment of deadly melee weapons. Troops can be outfitted with a variety of modern combat weapons. Pistols, assault weapons and specialty grenades will give your troops the edge!

Vehicles

Rules for vehicles enhance the game play of USX by making cars and trucks more than just terrain pieces to hide behind, although they are still great cover! Damage, speed and handling all play a part in how your vehicle performs with a skid table, collisions and Hollywood type explosions all covered.

Armor

Armor is handled through a simple yet effective modifier system that can be applied to vehicles and special units within the game.

Mythos creatures

RAFM's Cthulhu range of miniatures adds an element of horror to the game and allows players to face off against Mythos creatures. The use of a unique Horror check system compliments the Cthulhu element of the USX rules.

Spells

You'll need some extra jujy to deal with those horrors from beyond so we have included a few basic spells to help the budding cultist or investigator.

Specialty weapons and ammo such as flash bangs and m and a stopper rounds augment the game with special "Advanced rules" that work well when fighting off hordes of zombies or blinding the bad guys before your forces make their assault. USX is a flexible and fast game system capable of handling 2 player contests or group games with 4 and more players. Additional players do not slow USX and games will be concluded in 2 hours or less depending on the scenario. USX also features our "Dual initiative system" making the game more fun for all players involved.

USX Modern Day Heroes offers a well developed line of miniatures with over 35 single figure units to date and more waiting in the wings. Plus the award winning Call of Cthulhu range of miniatures from RAFM.

PAINT & PLAY UNIT BOXES:
An expanding Selection of RAFM's Paint & Play Unit boxes makes choosing a faction easy for players.

USX Starter Set gives you rules and two sets of miniatures to get you in the game!
