AMERICAN CIVIL WAR

15mm

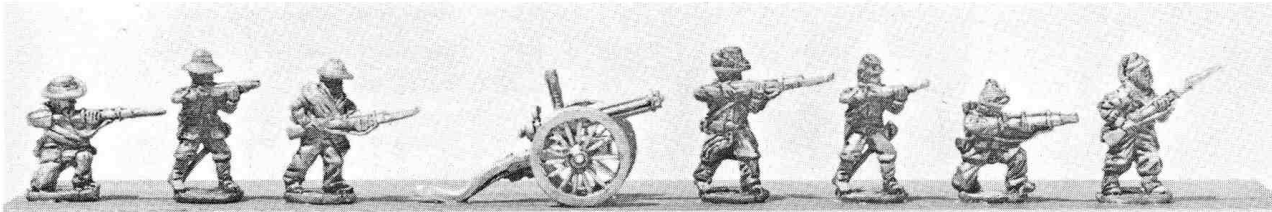

DESIGNER: GEORGE FREEMAN

ANN GALLUP

We are offering our 15 mm. American Civil War Line in an unusual way...these figures were designed by two sculptors, and we are listing their lines separately.

Figures with the code "AC" were designed by Ann Gallup, an artist with no previous wargaming background. Her figures have a unique quality about them...they have character. Figures with the code "AW" were designed by George Freeman, a professional military sculptor. His figures have all the classic poses plus many new ones, all of them unsurpassed in detail and quality -- a trait for which Hal Partha figures are known.

Inside this catalog you will find a wide selection of Fantasy figures as well as miniatures from five historical periods and a group of space miniatures. Many of these figures are new, and many more new figures will be added in the next two to three months. There are several new things in this catalog...

On Page 11, you will find our collectors line of 54 mm. figures, one of which is featured on our cover.

For the first time, we are carrying books, games, and rules. All items relate to one or more of our miniatures lines, and all are discounted 10% from list price.

On retail orders of \$100 or more, we will bulk-pack miniatures to your specifications; thus, if you need 37 Grenadiers and 8 Hussars for your Napoleonic Army, you can get together with some friend in your club and make a bulk order. The only rule is that you must order \$100 or more (retail value) of one line to be eligible for bulk packaging.

On Page 4, you will find Legions of the Petal Throne. We have acquired this line from Old Guard, the original manufacturer. Bill Murray has agreed to continue sculpting new figures, and Tom Meier, our Fantasy sculptor, will do some from time to time as well. Watch for new releases!!

Finally, a few reminders...

All retail orders over \$30 are entitled to a 10% discount, so it pays to send in big orders or go in with a friend.

Our special spears are listed on Page 3 (Fantasy) and Page 11 (Ancient Greece). These are piano wire with cast metal tips and decoration. All of our spear-carrying figures include special spears in the price, but they are also available separately for converting that special unit.

One good way to keep in touch is to send in an order from time to time. All orders from here on will be stuffed with an update sheet.

We hope you enjoy this catalog and our figures. If you have suggestions for figures you would like to see, feel free to write us. We are always looking for good ideas.

Sincerely yours,

Glenn E. Kidd
